PROFESSIONAL EXPERIENCE

Ardian | San Francisco, California

Private Equity Intern

June 2019 – August 2019

- Member of the leading international Fund of Funds Private Equity team with \$53bn assets under management.
- Extensively priced/monitored funds in Ardian's portfolio and evaluated opportunities in the secondaries market by analyzing LP interests and stakes in portfolio companies.
- Created and presented a 30-page memo for a primary investment of \$5bn into a new fund; analyzed the general partner's investment strategy, track record, portfolio companies and deal team to justify the undertaking.
- Represented Ardian on update calls, quarterly reviews and closed meetings with prospective general partners and investors.

Broadtree Partners | Berkeley, California

Private Equity Intern

January 2019 – May 2019

- Worked for a boutique, middle market private equity firm and sourced multiple deals a week by filtering for companies with \$10-\$50 million in revenue, using requested operational and financial data.
- Modelled a basic LBO for a potential acquisition; learned how to navigate Salesforce CRM; analyzed multiple CIM's per week and build basic DCF models to evaluate acquisition opportunities.
- Conducted market research on industries of interest to produce informational reports and communicated with various business owners.

CBS Interactive (CBSi) | San Francisco, California

Financial Planning & Analysis Intern

June 2018 – August 2018

- Developed a comprehensive model to forecast future expenses associated with migrating CBSi's physical data centers to various cloud computing platforms to help management evaluate the potential benefits of the migration.
- Created an interactive excel revenue template for FP&A in order to catalogue revenue streams from various advertising partners and determine which partners are generating the most attention.

Capital Investments at Berkeley | Berkeley, California

Senior Equity Research Analyst

Sep 2017 – Dec 2018

- Lead fundamental and macro due diligence as part of CIB's Directional Earnings Team; a strategy that seeks superior, market neutral returns through long/short investments made in companies announcing earnings.
- Came second place as part of a four-member team in a 20-team equity research case competition; we pitched stocks we believed were intrinsically mispriced, contributing evidence through fundamental research as well as DCF and comparable company models.

KPMG | Doha, Qatar

Deals Advisory Analyst

December 2016 – January 2017

- Conducted multiple research projects for our clients in the oil, gas and energy industries, to help them discern market conditions in industries they wished to invest in, such as that of Urea Fertilizers.

LEADERSHIP AND EXTRACURRICULARS

Numerade | Remote

Online Educator

August 2019 – Present

- Accelerate the learning and education of students by creating free online videos that answer textbook questions about mathematics and economics in order to help close the educational resource gap for low – income students.
- Tailor these videos to not just provide answers, but rather to cultivate a sense of curiosity and intrigue in my students and develop their passion for learning.

University of California | Berkeley, California

New Student Orientation Leader

April 2017 – August 2017

- Coordinated the orientation of 30 incoming students in a first-of-its kind program at UC Berkeley.
- Facilitated meaningful conversations on prevalent college topics and issues, such as waste/resource management, safety, mental health and sexual harassment.
